*NYC Community and Citywide Education Councils,  
where parents have a powerful voice in shaping the policies  
and priorities of New York City schools. Join in!*

If you are interested in improving your kids' lives and education, and have great ideas to improve our NYC schools, participate in the Education Council elections. It's your chance to make a real impact on how your school district works for your children and all of your neighborhood's children.

Is experience needed? No! You just need to be a parent of a NYC public school student, passionate, dedicated, and committed to making our schools the best they can be. By volunteering to run for one of the seats you'll help shape the education policies and priorities of your entire school district or even, the city.
